CONSTIPATION IS DANGEROUS

Pinklets, the New Laxative, Really Do Correct It.

The sufferer from constipation is distressed after eating, gas forms on the stomach, the abdomen has a feeling of pressure and weight and is hard and distended.

The blood soon absorbs poisons that should have been expelled and loss of flesh shows that the body is being poorly nourished. Headaches become frequent, the patient is drowsy, irritable and sometimes faint.

Pinklets, the new laxative pills, do not wear out their effect before accomplishing their work of correcting constipation, because they do not stimulate the bowels to over-exertion. They assist nature so gently that the action is regular and thorough, yet without griping. Pinklets put the liver, stomach and bowels in harmonious, perfect working order.

A short trial of Pinklets will convince you that they are the ideal laxative. Every druggist can now supply you with Pinklets at 25 cents per bottle. Write to the Dr. Williams Medicine Co., Schenectady, N. Y., for a Pinklet book telling all about treatment of constipation.

After careful investigation we have found that a simple wash of Oil of Wintergreen, as compounded in D. D. D. Prescription, can be relied upon. We would not make this statement to our patrons, friends and neighbors unless we were sure of it—and although there are many so-called Eczema remedies sold, we ourselves unhesitatingly recommend D. D. D. Prescription. Drop into our store today, just to talk over the merits of this wonderful Prescription.

Teach Your Child How to be Healthy

Regular Bowel Movement from Infancy Insures Good Health in Later Years

We cannot all start life with the advantages of money, but every child born is entitled to the heritage of good health. Through unfortunate ignorance or carelessness in the feeding of baby, its tiny stomach may become deranged. The disorder spreads to the bowels and before the mother realizes it the two chief organs on which the infant's comfort and health depend are causing it great suffering. If the condition is allowed to continue grave ailments often result.

There is, however, no occasion for alarm, and the sensible thing to do—should be done instantly—is to give the baby a small dose of a mild laxative- tonic. In the opinion of a great many people, among them such well-known persons as the parents of Bertha Lee Woodard, three years old, of Moultrie, Ga., the proper remedy is Dr. Caldwell's Syrup Pepsin. Mrs. L. N. Woodard says that little Bertha was troubled with constipation for over a year, and that after trying several different kinds of remedies she found her relief in Syrup Pepsin. It is a mild, pleasant-tasting laxative, which every person likes, does not gripe nor cramp, and contains that most excellent of all digestants, pepsin.

Dr. Caldwell's Syrup Pepsin is especially intended for infants, children, women, old people and all others, to whom harsh cathartics, salt waters, pills, etc., are distressing. In fact, in the com-

mon disorders of life, such as constipation, liver trouble, indigestion, biliousness, headaches, and the various other disorders of the stomach, liver and bowels, nothing is more suitable than this mild laxative- tonic, Dr. Caldwell's Syrup Pepsin.

Three generations of people are using it to-day, and thousands of families keep it constantly in the house, for every member of the family can use it. It can be obtained at any druggist at fifty cents or one dollar a bottle, the latter being the size bought by families who already know its value. Results are always guaranteed or money will be refunded.

Families wishing to try a free sample bottle can obtain it by addressing Dr. W. B. Caldwell, 419 Washington street, Monticello, Ill. A postal card with your name and address on it will do.—Adv.

MORE INQUIRIES

Into the Expenditures of the New Haven Railroad.

Boston, Jan. 27.—The public service commission yesterday resumed its investigation of the so-called "other expenses" incurred by the New York, New Haven & Hartford during the session of the legislature last year.

It was announced that former Vice-President Timothy E. Byrnes had been asked to return from California and testify.

It was also stated that Chairman Elliott of the New Haven road would be asked to call a meeting of the directors of the road for the purpose of acting on the suggestion that the officials be released from the obligation of treating as confidential their relations as counsel to clients in order that the commission may obtain additional information.

Clarence W. Barron closed his evidence by stating that the Boston News Bureau, of which he is manager, and allied concerns had received approximately \$50,000 profit in placing advertising in the New Haven and that \$140,000 had been paid the newspapers for publishing this advertising.

The witness charged that Charles S. Bird, the Progressive candidate for governor, was financially backing the investigation. This was denied by A. D. Hill, counsel for the Boston Journal, who was examining the witnesses.
